is pleased to announce the publication of a new science fiction book

EARTH'S ULTIMATE CONFLICT

by Kathy Porter

What if the threat of a world-wide pandemic, increased seismic activity, and global-warming were all linked to alien abduction? When Rosa DeAngelo flees Earth with her three alien hybrid children, she leaves behind her soul-mate and husband Tony. Ellen McCarthy is faced with the agonizing choice of abandoning her hybrid children or finding a way back to her three-month-old human child. With Earth's inhabitants faced with seemingly insurmountable illness and destruction, two rival alien species offer them salvation. United States President Barbara Unger will make the ultimate decision of who to trust: the Grays or the Guardians.

Earth's Ultimate Conflict is an exciting and fast-moving science fiction title. Stimulating and mesmerizing, Porter's book will have you thinking twice about the occasional ringing in your ears.

Praise For: *Earth's Ultimate Conflict*

"I will always keep *Earth's Ultimate Conflict* close to my heart."

-Ray Bradbury

"In the tradition of the creepiest works of Stephen King and other writers of horrific science fiction, *Earth's Ultimate Conflict* by Kathy Porter brings our very real collective fears home to rest in a personal way that literally gets under our skin, inside our bodies, and finally into our hearts and minds until there is no place left to run and no place left to hide."

-Matthew J. Pallamary, Best Books Award Finalist in the USA Book New Awards

— Author *Land Without Evil* and *Spirit Matters*

"Science fiction fans will applaud the appearance of this bold new voice for the genre."

Ellen Tanner Marsh, *New York Times* best-selling author
